*Dear Fellow American:*

Thank you for taking part in the July 4 tea parties taking place all across our land. We congratulate our allies and friends who have made these events possible. Ben Franklin once said, "Those who sacrifice liberty for security deserve neither." Let's strengthen the freedom of families, not the power of government, in health care. As we raise our voices, our leaders will hear. Join our campaign to save and improve the U.S. health care system at [clearconsciencehealthcare.org](http://clearconsciencehealthcare.org)

Thank you and God bless you.

Tony Perkins  
President  
FRC Action
